INTRODUCTION

The Papers of the Seminar on the Acquisition of Latin American Library Materials contain a wide array of information of importance to Latin Americanist librarians, scholars, and bookmen. Included are theoretical articles, bibliographies, and research guides related to the annual conference themes as well as case studies and other practical information on these and other areas of concern. The present work, which indexes by subject and author the contents of the Papers resulting from SALALM XXVI (1981) through XXX (1985), supplements the Index to the SALALM Papers, 1956-1980, published by SALALM in 1984. The Papers of SALALM XXX onward are included in HAPI: Hispanic American Periodicals Index.

The index is divided into separate subject and author sections. Headings in the Subject section are based on the HAPI Thesaurus and Name Authority, 1970-1983 (Los Angeles: UCLA Latin American Center, 1984) and its supplements, adapted to meet the specialized nature of the material treated. To facilitate access, some citations appear under more than one heading. Cross references guide the reader to proper headings and tie together materials on related topics. The Author section cites individual and joint authors in a single alphabetical list.

Each entry contains the following bibliographic information: author(s), full title of the paper, volume number corresponding to the number of the Seminar, year of the Seminar, inclusive pages numbers, and relevant bibliographic notes.

Preceding the index is a list of the Seminars analyzed; full citations are given for each. Copies of the Papers are available from the SALALM Secretariat, Memorial Library, University of Wisconsin, Madison, WI 53706.
